

MATERIAL SAFETY DATA SHEET

PRODUCT: SLOW RELEASE GRANULAR FERTILISER FOR FRUIT & FLOWER PLANTS

Date of Issue: 16 AUG 2021 **Valid until:** 15 AUG 2026 **GHS Format**

1. IDENTIFICATION OF MATERIAL & SUPPLIER

Product (material) Name: Manutec Slow release granular Fertiliser for Fruit & Flower plants

Other names: None

Manufacturer's code: MTO2246 (1KG)

Recommended use: as a slow release granular fertiliser to supply all essential nutrients and rich in Potassium for healthy growth, flowering and fruiting of all types fruit and flowering plants

Manufacturer/Supplier Information:

Name: MANUTEC PTY LTD

Address: 30 Jonal drive, Cavan, South Australia 5094

Telephone No:+61-8-8260 2277 **Fax:**+61-8-8260 2399

Email: manutec@manutec.com.au

Emergency contact only: Poisons Information Centre (Australia) 131126

2. HAZARDS IDENTIFICATION

Poisons Schedule: None classified

Hazard Classification: NOT hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS)

Hazard Categories: None specified

Pictograms: None specified

Signal Word: None specified

Hazard Statements: None specified

Precautionary Statements: None specified

National Transport Commission (Australia)

Dangerous Goods Classification

NOT Dangerous Goods according to the criteria of the Australian Code for the Transport of Dangerous Goods by Road & Rail (ADG Code)

3. COMPOSITION/INFORMATION ON INGREDIENTS

<u>Chemical Entity</u>	<u>CAS Number</u>	<u>Proportion</u>
Proprietary formulation of various non hazardous ingredients in granular form (Major Ingredients are Super Phosphate (CAS NO 8011-76-5) Potassium Silicate (CAS NO 1312-76-1) and Ammonium Sulphate (CAS NO 7783-20-2) Calcium Phosphate monobasic (CAS NO 7757-93-9) Urea (CAS NO 57-13-6) Plus Proprietary blend of Trace elements and organic material (fish, seaweed, humic acid)		to 100%

4. FIRST AID MEASURES

If poisoning occurs, please contact immediately Poisons Information Centre (Australia) on 131126

Ingestion:	Rinse mouth with water. If swallowed, donot induce vomiting. Give a glass of water to drink, but never give anything by mouth to unconcieuus person. If vomiting occurs give additonal water. Seek medical help immediately.
Eye:	Flush with flowing water for 10-15 minutes. If irritation persists, seek immdediate medical advice.
Skin:	Remove contaminated clothing. Wash affected part with soap and clean water. Any symptoms such as swelling, redness, blister or irritation occurs, seek immediate medical attention.
Inhaled:	Remove victim to fresh air. Remove contaminated clothing and make victim comfortable postion. Seek mediacal help if victim still uncomfotable and develop any symptoms.
Aid Facilities:	Poisons Information Centres in each State capital city may provide additional assistance (Ph 131126).
Advice to doctor:	No special advice, treat symptomatically.

5. FIRE FIGHTING MEASURES

Hazchem code: Not applicable

Extinguishing media:

Material is non-combustible, however if cuaght in fire use Water spray/fog, foam, dry agent (carbon dioxide/dry chemical powder)

Special protective equipment for firefighters:

On decmoposition, may emit toxic fumes, so fire fighters to wear appropriate clothing and self contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Small spills: Ensure to wear appropriate protective gear (such as gloves/goggles) as appropriate & sweep to collect in to a rag or paper towel & dispose as general waste

Large spills: Ensure to wear appropriate protective gear and sweep and collect in to properly labelled containers. Avoid material entering in to drainage or waterways. Advice or contact local council or environmental authority as appropriate.

7. HANDLING AND STORAGE

- Avoid Skin, eye contact and inhalation of dust.
- Store in a dry, cool and ventilated place away from Children, pets and exposure to direct sunlight. Also store away from any incompatible materials described in section 10 of this safety data sheet.
- When not in use and after use, ensure to keep the container/bag sealed properly.
- If any spillage, follow appropriate action as described in section 6 of this data sheet.
- Store in original packaging as approved by manufacturer

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering measures:

Proper Ventillation in place, particualry while handling larger volumes in factory settings and use appropriate protective cloth

Control of exposition limit:

Respiratory protection: Keep ventilated and use mask during handling large volumes

Hand protection: Rubber or plastic gloves

Eye protection: Safety glasses

Skin protection: Use adequate cloth

Personl Protection in Manufacturing/Packing area:

Wear overalls, safety glasses and impermiable gloves. Avoid generating dust. If dust exists wear appropriate dust mask meeting requirements of AS/NZS 1715 Standards. Always wash hands after handling and before eating, smoking or drinking. Wash contamintaed clothing before storing or reuse

Hygeinic and personal protection practices while handling the product

Keep the material/product away from food and drink, animal feed.

When using, donot eat,drink or smoke

Wash hands or affected area thoroughly prior to eating, drinking or smoking

Avoid contact with skin, eye and inhalation of any dust from the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Form:	Granular shape with approx, 2-4 mm particle size
Colour:	blend of white, black & grey particles
Odour:	None
Melting Point:	Not applicable
Boiling Point:	Not applicable
Vapour Press kPa 025C:	Nil

Specific Gravity:	Not determined
Flashpoint (C):	Non flammable
Flammability Limits:	Non flammable
Solubility in water:	slowly soluble in water

10. STABILITY AND REACTIVITY

General Information	Product is a non-flammable solid.
Chemical Stability	Product is stable under normal conditions of use, storage and temperature.
Conditions to Avoid	Avoid excessive heat, generating dust, direct sunlight, moisture and high temperatures.
Materials to Avoid	Incompatible with strong oxidising agents, bases, mineral acids.
Hazardous Decomposition Products	
Main combustion gases if caught in fire: sulfur oxides (SO _x), metal oxides.	
Hazardous Polymerisation	
Hazardous Polymerisation has not been reported.	

11. TOXICOLOGICAL INFORMATION

In general when the product is used and handled safely and as per directions on the label and per safety data sheet instructions, no adverse effects are expected. However in case of mishandling or overexposure to the product, may result in symptoms of acute and Chronic effects.

Information on Toxicity: No published data or information available, however materials used in this product are considered non- hazardous.

ACUTE EFFECTS

Ingestion/Swallowed:	May cause gastric irritation and result in nausea & vomiting, however ingestion of large amounts may be harmful and dangerous. No data available
Eye:	Irritant on contact
Skin:	Prolonged exposure may cause irritation and dry skin, particularly to sensitive skins
Inhaled:	Non hazardous, Not generally dusty, but if dusty and exposed to dusts may be irritant to the respiratory track or mucous membrane.

Chronic Toxicity:

Mutagenicity:	No data/information available, but material considered non hazardous
Carcinogenicity	This material considered non hazardous
Specific Organ Toxicity	No information available but material considered non hazardous.

12. ECOLOGICAL INFORMATION

Ecotoxicity	No data available
--------------------	-------------------

Mobility	Completely soluble in water.
Environmental Fate	Do NOT allow excessive product to reach waterways, drains and sewers.
Bioaccumulation Potential	No information available on bioaccumulation for this product.
Environmental Impact	No Data Available

13. DISPOSABLE CONSIDERATIONS

General Information Dispose of in accordance with all local, state and federal regulations. All empty packaging should be disposed of in accordance with Local, State, and Federal Regulations or recycled/reconditioned at an approved facility.

14. TRANSPORT INFORMATION

National Transport Commission (Australia)

Australian Code for the Transport of Dangerous Goods by Road & Rail (ADG Code)

Dangerous Goods Classification

NOT Dangerous Goods according to the criteria of the Australian Code for the Transport of Dangerous Goods by Road & Rail (ADG Code)

Marine Transport

Not classified as dangerous according to the criteria of International Marine Dangerous Goods (IMDG) for transport by sea.

Air Transport

Not classified as dangerous according to the criteria of International Air Transport Association (IATA) Dangerous Goods regulation for transport by air.

15. REGULATORY INFORMATION

Constituents or materials used in this product are covered by Australian Inventory of Chemical Substances (AICS)

Poisons Schedule (Aust) Not scheduled

16. OTHER INFORMATION

The MSDS is a Hazard Communication tool and should be used to assist in the Risk Assessment. Many factors determine whether the reported Hazards are Risks in the workplace or other settings. Risks may be determined by reference to Exposures Scenarios. Scale of use, frequency of use and current or available engineering controls must be considered.

STATEMENT OF DISCLAIMER:

This Material Safety Data Sheet has been developed according to WHS Code of Practice Preparation of Safety Data Sheets for Hazardous Chemicals Guidelines and written in accordance with GHS format. All information is as accurate and up-to-date as possible. Since Manutec Pty Ltd cannot anticipate or control the conditions under which this information may be used, each user should review the information in the specific context of the intended application. Manutec Pty Ltd will not be responsible for damages of any nature resulting from use of or reliance upon this information.

No expressed or implied warranties are given other than those implied mandatorily by Federal, State or Territory Legislation.
